## CNS Clinical Trials and Brain Metastases Registration Now Open

Registration for the 2nd Annual Conference on CNS Clinical Trials and Brain Metastases is now open. SNO and ASCO members receive discounted registration rates. Online registration closes on Friday, August 5, 2022. On-site registration will be available with a \$50 surcharge.

Registration for the conference includes access to the following:

- Scientific and Independent Supported Sessions
- A special Town Hall
- Breakfast, lunch, and refreshment breaks
- Poster reception at the Sheraton Centre Toronto Hotel
- Networking reception with Meet the Exhibitors in the Exhibit Hall
- Recorded content following the conference
- Poster e-Gallery

## From The Journals

### *From Neuro-Oncology Practice*

**Primary brain and other central nervous system tumors in the United States (2014-2018): A summary of the CBTRUS statistical report for clinicians**

The Central Brain Tumor Registry of the United States (CBTRUS) contains information on all primary brain and other central nervous system (CNS) tumors diagnosed in the United States (US). Here we summarize the 2021 CBTRUS annual statistical report for clinicians. [Click here to read the full article.](#)

## Upcoming Webinars

The Society for Neuro-Oncology's Molecular Pathology Special Interest Track is pleased to announce the quarterly event for the SNO Pathology FAST (First Author Series Talk) webinar series. The webinar entitled Spatial Immunogenomic Heterogeneity of Malignant Brain Tumors will occur live on Monday May 16, 2022, at 1:00pm - 2:00pm EDT. [Click here to register.](#)

The Pediatric Special Interest Track is pleased to present the next broadcast of the Pediatric Tumor Board Series. The broadcast entitled Posterior fossa ependymoma: Current upfront and relapse management strategies in the molecular era will occur live on May 24, 2022, 12:30-2:00 pm EDT. [Click here to register.](#)

## Featured Clinical Trial

**Pivotal, Randomized, Open-label Study of Optune® (Tumor Treating Fields) Concomitant With RT & TMZ for the Treatment of Newly Diagnosed GBM (EF-32)**  
Building on EF-14, the TRIDENT (EF-32) trial is an international open-label randomized study of Optune (Tumor Treating Fields or TTF) concomitant with radiation and temozolomide versus adjuvant TTF in patients with newly diagnosed glioblastoma. [Read more here.](#)

## SNO Career Center

The banner features the text 'SNO CAREER CENTER' in a bold, black, sans-serif font on a light blue background. To the right of the text is an image of a stethoscope, a pair of glasses, and a notepad with a pen.

**This Week's Featured Listing**  
Miami Cancer Institute (MCI), Baptist Health South Florida (BHSF) is looking to hire a full-time neuro-oncologist to a multidisciplinary, academic/hybrid CNS tumor program, including a neuro-oncology director, chair of medical oncology, 4 neurosurgeons and 4 CNS radiation oncologists.
