Weekly news from
the Society for Neuro-Oncology

Record Impact Factor for *Neuro-Oncology* announced

The Society for Neuro-Oncology is pleased to announce that the newly released *Journal Citation Reports*™ provides that the Impact Factor for SNO's journal, *Neuro-Oncology*, has risen to 13.029 (up from 12.30).

Given the relatively narrow editorial focus of *Neuro-Oncology* as a subspecialty publication, these are remarkable statistics, and the Society is grateful to Kenneth Aldape who served as Editor-in-Chief of *Neuro-Oncology* during the period that the new citation report covers. SNO President, Tracy Batchelor lauds, "I commend Ken on this outstanding achievement that now sees our flagship publication ranked 8th out of 212 in Clinical

Neurology titles and 21st out of 245 Oncology titles. Under Ken's leadership, the journal has flourished, and he now passes the editorial leadership to Susan Chang who I am confident will continue to deliver scientific content of the highest quality to multidisciplinary neuro-oncology professionals around the world."

Oxford University Press has assembled a collection of impactful research from the *Neuro-Oncology* family of journals, which can be [found free-to-view here](#). The Society for Neuro-Oncology is grateful to our editors, reviewers, and readers and invite you to [join our community of influential authors](#).

Keynote Speaker Shares Details for the Upcoming 2022 Joint SNO/ASCO Conference on CNS Clinical Trials and Brain Metastases

Hear conference co-chair Mustafa Khasraw interview keynote presenter Keith Flaherty.

27th Annual Meeting and Education Day Updates

Abstract Submission

SNO received a record number of 1190 abstracts in 32 categories. If you submitted an abstract for the annual meeting, you should have received an acceptance notification email. Please be sure to register for the meeting so you can present your research. All accepted abstracts will be published in the journal *Neuro-Oncology*.

Diversity Scholarship Opportunity

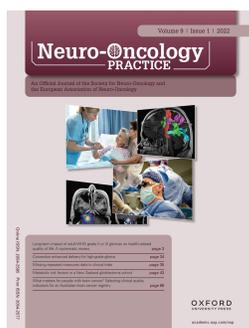

WDC Scholarship Deadline Extend Until July 29, 2022

Thanks to the generous support of Novocure, the SNO Women and Diversity Committee will award 10 scholarships to early career healthcare professionals who are underrepresented in medicine (URIM) and wish to further a career in neuro-oncology.

From The Journals

From *Neuro-Oncology Practice*

Assessing mobility in primary brain tumor patients: a descriptive feasibility study using two established mobility tests

Patients with primary brain tumors (PBT) face significant mobility issues related to their disease and/or treatment. Here, the authors describe the preliminary utility and feasibility of two established mobility measures, the Timed-Up-and-Go (TUG) and Five-Times Sit-to-Stand (TSS) tests, in quickly and objectively assessing the mobility status of PBT patients at a single institution's neuro-oncology clinic. [Click here to read the full article.](#)

Upcoming Webinar

Molecular Pathology *FAST*
First Author Series Talk

The Society for Neuro-Oncology's Molecular Pathology Special Interest Track is pleased to announce the quarterly event for the SNO Pathology FAST (First Author Series Talk) webinar series. The webinar entitled Current Advances in Melanoma and Brain Metastases will occur live on Monday August 29, 2022, at 1:00pm - 2:00pm ET. For complimentary registration, [click here](#).

Share Your Insights

Early Career Professionals in Neuro-Oncology

The Young Investigator's Committee of the Society for Neuro-Oncology will host a Young Investigators Luncheon during the 27th SNO Annual Meeting on Saturday, November 20, in Tampa, FL, at the Tampa Convention Center. In our efforts to develop a truly enriching program for the luncheon, we would like to hear from you what you feel is important to learn in your career in the next three to five years. [Click here to share your insight.](#)

SNO Digest

Introduced in 2022, the SNO Digest is a weekly information resource from the Society for Neuro-Oncology. The SNO Digest seeks to provide members and non-members of the Society with a concise summary of SNO activities and initiatives. [Click here to share your insight.](#)

Featured SNO Learning Module

Neurosurgery

The Neurosurgery module provides lectures that focus on surgical indications and surgical techniques pertaining to a variety of primary brain tumors, skull-based tumors, and metastatic brain tumors for both the adult and pediatric patient populations. All SNO learning modules are free of charge. [Click here to view the module.](#)

SNO Career Center

This Week's Featured Listing

The Johns Hopkins Sidney Kimmel Comprehensive Cancer Center / Department of Oncology is seeking applicants for positions in Neuro-Oncology at our National Capital Region. The position will be based within Johns Hopkins Oncology at the Sibley Hospital located in Northwest D.C. with full integration with the Baltimore-based Brain Cancer Program.
