2022 SNO Introduction to Clinical Trial Design and Protocol Development Workshop - Apply Now

The deadline is approaching to apply for the 4th Annual Introduction to Clinical Trial Design and Protocol Development Workshop. **The Deadline is April 15, 2022!** This year's workshop will be held in person on Thursday, August 11, 2022 in Toronto, Canada, prior to the Conference on CNS Clinical Trials and Brain Metastases, Co-Sponsored by SNO and ASCO. **New this year is an expanded offering to include an introductory protocol development option for participants without prior experience writing a clinical trial protocol or conducting clinical research.**

A total of up to 75 participants will be selected to attend the workshop through a competitive application process, with up to 50 participants selected for Group 1 and up to 25 participants selected for Group 2. Applicants will select their preferred Group in the application, but the Course Planning Committee reserves the right to make final Group selections for each participant. Pediatric Tumor Board

If you did not have the opportunity to catch the latest broadcast of the Pediatric Tumor Board Series on Embryonal tumor with multilayered rosettes (ETMR), you can watch it on-demand [here](#). The Pediatric Special Interest Track also welcomes interesting and challenging cases to present at future tumor boards. Please submit your submission to pedstumorboard@soc-neuro-onc.org. For complete guidelines, [click here](#). Also, this is your last chance to participate in the [Pediatric Certification Survey](#) that seeks to gather information regarding the demographics and training of doctors caring for children and young adults.

[Serial H3K27M cell-free tumor DNA \(cf-tDNA\) tracking predicts ONC201 treatment response and progression in diffuse midline glioma](#)

Dr. Iyad Alnahhas interviews Dr. Carl Koschmann about his and his team's recent manuscript entitled: "Serial H3K27M cell-free tumor DNA (cf-tDNA) tracking predicts ONC201 treatment response and progression in diffuse midline

From The Journals

Next-generation Sequencing of Cerebrospinal Fluid for Clinical Molecular Diagnostics in Pediatric, Adolescent and Young Adult (AYA) Brain Tumor Patients

Safe sampling of CNS tumor tissue for diagnostic purposes may be difficult if not impossible, especially in pediatric patients, and an unmet need exists to develop less invasive diagnostic tests.

Head to The Hill - Volunteers Needed

SNO members are encouraged to register to join the National Brain Tumor Society and their fellow advocates for Head to the Hill on May 2-3, 2022. All interested participants must register individually. Head to the Hill is our annual advocacy event where individuals help policymakers better understand the urgent, unmet needs of the brain tumor community. There are **both in-person and virtual participation** options this year. We are asking that members from, **Delaware, Kentucky, Alaska, Hawaii, Nebraska, Rhode Island, Wyoming, South Dakota, Wisconsin, Vermont, West Virginia, and Oklahoma, Idaho, Utah, Montana, North Dakota, Arkansas, and Mississippi** take the opportunity to register for this exciting event. For more information and to register, please [click here.](#)

SNO Career Center

This Week's Featured Listing

Hartford HealthCare, where 1 in 3 Connecticut residents receive their healthcare, invites applications from neuro-oncologists to join their Cancer Institute and the Ayer Neuroscience Institute to advance their neuro-oncology clinical and research programs.
